OUR SUSTAINABLE FUTURE

OUR ENVIRONMENTAL POLICY
Environmental concerns are central to T&G as our product range is predominantly wood. Our policy is to try to ensure that all T&G products are manufactured from timbers sourced from well-managed FSC® certified forests, recycled materials, and other controlled sources.
“Timber is a precious resource in terms of both its own life and the diverse flora and fauna it supports. T&G pay particular attention to the products we manufacture and buy, their sustainability and suitability for our increasingly environmentally concerned customers and consumers.”

WE'RE FSC® CERTIFIED
T&G have held FSC® certification since 1999, and the FSC® logo on our products provides you the customer with an independent guarantee that the forest is managed according to agreed social, environmental and economic standards.
Over 70 of our products are certified according to the FSC® principles. Please look for the FSC® logo against certified products. FSC® is T&G’s commitment to making a difference.

SHARE YOUR PICS WITH US

FSC® CERTIFIED BEECH
T&G have a variety of products in sustainable FSC® certified natural beech wood.

CORK
FSC® certified cork table mats, coasters and pot stands, simple, contemporary, inspired by nature.

100% RECYCLED GLASS
Our 100% Recycled Glass range offers sustainable beauty, quality & style.

New from T&G

ECLIPSE BLACK & ACACIA
The acacia wood brings rich grain patterns and natural variation, while the matte black elements add a bold, sophisticated contrast.

PROFESSIONAL ONYX BY T&G
High-performance kitchenware range crafted from durable, knife-friendly fibreboard delivers both style and everyday practicality.

ACACIA GEOMETRIC BOWLS
Beautifully sculpted acacia wood bowl, designed with a striking geometric form that blends modern style with natural warmth.

HERRINGBONE ACACIA
Crafted from beautifully grained acacia wood, each board showcases a unique mosaic of warm tones arranged in an elegant herringbone pattern. The result is a piece that's as functional as it is decorative.

NEW STEAK BOARDS
Double-sized steak boards are designed with deep juice grooves on both sides and a practical recess for a dip dish, making them the perfect accompaniment to any meal. Available in both hevea and acacia wood.

NEW CAPSTAN COLOURS
Classic mills are available in a variety of materials including acrylic, hevea, beech, copper finish and coloured woods.

**GOOD THINGS
COME TO THOSE
WHO WAIT**

ONE OF THE MOST FASCINATING IDIOSYNCRATIC ASPECTS OF THE CORK OAK FOREST LIES IN ITS REGENERATIVE POWER. THE MORE IT IS HARVESTED, THE MORE IT PROTECTS THE ENVIRONMENT.

*Look out for
FSC® certified products*

**NOTHING
IS LOST
—
EVERYTHING IS
TRANSFORMED**

**THE LIFE CYCLE OF CORK NINE YEARS
FROM HARVEST TO HARVEST**

Cork is in fact the outer bark of the cork oak, which is grown commercially in a narrow belt stretching through Portugal, Spain and the South of France and along the North African coast. The bark is stripped only in summer and the first stripping must wait until the tree is about twenty years old. Subsequent strippings take place every nine or ten years. This makes cork an ecologically acceptable product, as it is one of the few materials, which regenerates itself.

DISPLAY STANDS

T&G HAVE INVESTED IN DURABLE AND PRACTICAL MERCHANDISING SOLUTIONS FEATURING A HIGH-IMPACT, FULL-COLOUR HEADER BOARD AND SIDE SIGNAGE FOR CLEAR COMMUNICATION AND STRONG IN-STORE VISIBILITY. THESE STANDS HAVE BEEN DESIGNED SPECIFICALLY FOR T&G DISPLAYING UTENSILS, SALT & PEPPER MILLS & BOARDS.

Utensil Stand

This utensil stand is ideal for displaying a wide range of our wooden utensils. Featuring new colourful header cards, it allows you to hang your utensils, creating a bright, eye-catching display that beautifully showcases your T&G product range.
L1750 x W680 x H415mm

Seasoning Stand

This seasoning stand is ideal for displaying your salt, pepper, and spice mills, along with accessories. It creates an eye-catching display that beautifully showcases your T&G product range.
L1750 x W680 x H415mm

THESE STANDS ARE ADAPTABLE AND VERSATILE, ALLOWING YOU TO ADD SHELVES OR HOOKS AND MERCHANDISE PRODUCTS IN A WAY THAT BEST SUITS YOUR DISPLAYS.

T&G MILLS

THE WORLD'S BEST MILLS!

"Every house in the world has a mill that doesn't work properly". It was these 12 words that started minds grinding. In 1998 we launched our first range of mills powered by CrushGrind® technology, setting standards in mill and technology design.

- CrushGrind® Mills have:**
- 10 year guarantee
 - Non-corrosive ceramic mechanism
 - Easy to fill design — no spindle
 - Super high and consistent yield

- CrushGrind® Mills are:**
- Fully adjustable
 - More than 12 grinding positions
 - Harder and sharper than steel
 - Suitable for salt, pepper, whole dried herbs and spices
 - Tested to the equivalent of 200 years normal domestic use

The CrushGrind® ceramic mechanism allows you to effortlessly grind not only salt and pepper but also, using the same grinder, whole dried herbs and spices.

T&G's Salt & Pepper Mills lead the market in terms of design, function and quality with many mills to choose from using a variety of materials such as crystal clear acrylic, FSC® certified beech, stainless steel, hevea, black walnut, antique beech and ash. Most have been exclusively designed by T&G, offering a combination of classic and more innovative designs.

All T&G salt mills are approved for use by the Maldon Crystal Salt Company Ltd. (maldonsalt.co.uk)

HYGIENE CARE & USE

WOOD & HYGIENE

Undoubtedly, the most hygienic chopping board is going to be one that is cleaned most frequently, regardless of what it is made of. Wooden boards are very hygienic, as recent research carried out at a leading American University has proved. Their findings have shown that wooden surfaces are capable of decontaminating themselves, without the aid of bleach or harsh cleaning solutions. It is not entirely clear how the woods defence mechanism works, but seemingly the bacteria are sucked into the porous surface and 'strangled' by the anti-microbial chemicals, with which living trees protect themselves. Their tests proved that bacteria died very quickly on wood, but thrived on boards made from all types of polymer and rubber, and wood was simply the best hygienic choice. A full report giving details of tests is available by contacting T&G's Marketing Department.

T&G PRODUCT MATERIALS

At T&G we pride ourselves on over 40 years of experience leading the housewares industry with our distinctive wood, ceramic and mill collections. Please see below information on each type of material we use and the care and use of each.

T&G'S FOOD SAFE WOOD OIL

Mineral oil for wood treatment is far superior to vegetable oil and is the product T&G recommend to care for your wood products.

The benefits are:

- mineral oil dries much quicker and does not leave a sticky residue
- mineral oil sinks deeper into the wood enhancing its preserving qualities
- mineral oil will enhance the look and preserve the life of your product.

07002
Food safe wood oil (including shelf display box containing 6 bottles)
250ml

HEVEA

(Braziliensis — wood from the rubber tree) this is a white tropical hardwood from the rubber tree, which is planted mainly for natural rubber production. The major rubber producing countries are Indonesia, Malaysia and Thailand which together account for approximately 74% of the total plantation area. Hevea is very ecologically sound. After 25-30 years, when the trees are approximately 15 inches in diameter, they are unable to produce sufficient latex for conversion by the rubber factory, so they are felled and replaced by young trees. There is the added value of a very useful and attractive timber, which is hard and stable, reducing the likelihood of warping. The beautiful finish and light grain looks great on kitchen accessories as well as boards. Hevea can be successfully colour stained for co-ordination and lacquered or oiled to seal the wood enhancing its appearance and prolonging its 'working life'.

CARE & USE: All T&G Hevea products have been sealed with a non-toxic protective lacquer to enhance the appearance and to help prevent the absorption of water when washed. To clean simply wipe over the surface with a damp cloth or wash in warm soapy water, do not soak, dry immediately. As with all Woodware, hevea can dry out with use, so an occasional wipe with T&G's food safe wood oil does much to restore the original natural appearance.

ACACIA

Acacia is a tree with roughly 1300 species around the world and is easily recognised by its umbrella shaped canopy. The scientific name for the species of Acacia T&G use is 'Samanea Saman Merr' often known as the 'Rain Tree' and in US and European circles as 'Monkey pod'. It is well appreciated with environmentalists because of the enormous amount of CO² this tree can absorb, very useful when planted along the roadsides.

This species, popular for its timber, can be found over much of South East Asia. It grows at a fast rate (0.75 to 1.5m annually) and it is also interplanted as a shade tree with other crops such as coffee or cocoa.

In Thailand, it is cultivated in many areas, especially the North, East and Centre, although much planting is along roadsides for producing shade.

It can grow to around 25m high and the canopy will be wider than the height but in the last 15-20 years Acacia trees have been cut leaving the root so that the root

sprouts again as with our native Willow which we call 'Pollarding' and T&G assume that is why this timber is also called 'Black Wattle'.

In some areas of Thailand villagers still plant Acacia trees as they are popular hosts to an insect called 'Laccifer Lacca Kerr'. This insect produces a scarlet, resinous secretion often used as food colouring and is similar to our 'Cochineal'. It is also applied to dyes and lacquers as a colourant and is often referred to as 'Shellac'.

There is also a certain amount of self-seeding but in certain provinces villagers are encouraged to plant Acacia trees from seeds supplied by officers of the Royal Forest Department of Thailand to increase the local resources.

The timber has been referred to as 'Black Wattle' or from its appearance 'Black Walnut'. T&G consider Acacia a rich coloured wood with a wild grain. It is a very hard wood and most suitable for use in the home for cutting boards to bowls.

CARE & USE: All T&G acacia products have been sealed with a non-toxic protective lacquer and are oiled to enhance the appearance and to help prevent the absorption of water when washed. To clean simply wipe over the surface with a damp cloth or wash in warm soapy water, do not soak, dry immediately. As with all Woodware, acacia can dry out with use, so an occasional wipe with T&G's food safe wood oil does much to restore the original natural appearance.

PAINTED ACACIA / ECLIPSE

T&G's painted acacia products are made from acacia wood with a painted finish on the exterior and natural acacia on the interior, finished with a clear lacquer. The combined finishes create interesting storage and display products that are both practical and durable.

CARE & USE: To clean simply wipe the surface with a damp cloth, do not soak, dry immediately.

RUSTIC ACACIA

Is the same wood but the finish is treated differently. Every one of our rustic boards is completely unique. These beautiful rustic boards vary widely in their appearance, making every one extra special and individual.

Our Rustic Acacia wooden boards/ platters are ideal for preparing and serving food. On trend with today's fashion of casual lifestyle and individuality.

As with all woodware, Acacia can dry

out with use, so an occasional wipe with T&G's food safe wood oil or a mineral oil does much to restore the original natural appearance.

CARE & USE: All T&G Rustic Acacia products have been oiled and do not have any lacquer. To clean simply wipe over the surface with a damp cloth or wash in warm soapy water, do not soak, dry immediately.

NORDIC

Acacia wood is a rich coloured wood with a wild grain. It is a very hard wood and most suitable for use in the home for kitchen accessories. The T&G Nordic range has a rough sawn finish and is available in two colourways — a natural finish which has a non-toxic protective lacquer and a white which has a non-toxic white painted finish. Both these finishes are suitable for contact with food.

CARE & USE: All T&G Nordic products have been treated. To clean simply wipe over the surface with a damp cloth and dry immediately.

FSC® CERTIFIED BEECH

A beautiful warm wood, a northern temperate hardwood from a medium sized tree, averaging 30m high. Beech is a pale cream colour with a straight grain; it is fine textured with small spindle shaped markings. It adapts well to humidity and is ideally suited to the production of kitchen utensils such as spoons, spatulas, rolling pins and chopping boards. In Europe it is the most commonly used timber for the production of food preparation products and kitchen furniture. Beechwood can be successfully colour stained for co-ordination and waxed or oiled to seal the wood, enhancing it's appearance and prolonging it's 'working life'.

CARE & USE: Wood is a product that appreciates care. Keep away from heat and direct sunlight. To prolong life and appearance wipe with T&G Food Safe Wood Oil. Not dishwasher safe. To clean simply wipe over the surface with a damp cloth and dry immediately.

OAK

Oak wood has a great density and therefore, great strength and hardness, and is very resistant to insect and

fungal attack because of its high tannin content. It also has beautiful grain markings, making it perfect for kitchenware products. Oak has been used since the Middle Ages for use in interior panelling of prestigious buildings such as the debating chamber of the House of Commons in London, and in the construction of fine furniture. Oak wood, from Quercus robur and Quercus petraea, was used in Europe for the construction of ships, especially naval men-of-war, until the 19th century, and was the principal timber used in the construction of European timber-framed buildings. Today oak wood is still commonly used for kitchenware, furniture making and flooring, timber frame buildings, and for veneer production.

As with all woodware maintaining the look of your board is essential, so an occasional wipe with T&G's food safe wood oil or a mineral oil does much to restore the original natural appearance

CARE & USE: To clean simply wipe over the surface with a damp cloth or wash in warm soapy water, do not soak, dry immediately.

CERAMIC & STONEWARE

T&G's ceramic ranges are designed to be used and enjoyed with confidence. We test items to ensure that we deliver quality items that are functional, durable and safe. All T&G's ceramic ware is easy to clean either by hand using conventional hand-wash detergents or by using a dishwasher.

DISHWASHER SAFE: All T&G's ceramic items can be washed in a regular domestic dishwasher. Always follow your dishwasher manufacturer's specific instructions.

GLASS

T&G's glass storage items are produced from recyclable Soda-lime glass, which is annealed to ensure its durability. They are ideal to add style to your kitchen.

RECYCLED GLASS

T&G's Recycled glass tableware is produced from 100% Post Consumer Recycled Glass.

These items help reduce Landfill waste and raw material extraction. Recycled glass also uses less energy than standard glass production.

CARE & USE: Hand wash only. Not suitable for hot liquids.

FSC® CERTIFIED CORK

Cork is in fact the outer bark of the cork oak, which is grown commercially in a narrow belt stretching through Portugal, Spain and the South of France and along the North African coast. The bark is stripped only in summer and the first stripping must wait until the tree is about twenty years old. Subsequent strippings take place every nine or ten years. This makes cork an ecologically acceptable product, as it is one of the few materials, which regenerates itself.

CARE & USE: Wipe clean with a damp cloth to remove any food particles or light stains. An occasional scrub with a dish brush will remove any stubborn deposits. If surface staining should occur, it can be easily remedied by rubbing over the area with a kitchen abrasive such as Cif, using a nylon scouring pad. Cork does not absorb stains so discolouring is a surface coating.

WIREWARE

Our wireware collection of unique and charming storage solutions for the kitchen is produced from powder coated steel wire to give a beautifully rustic appearance. The pieces are very decorative, but also robust and functional.

CARE & USE: To clean simply wash in warm soapy water and dry immediately. Not safe for use in a dishwasher.

ONYX FIBERBOARD

The Onyx Fibreboard range from T&G Woodware brings together refined design and high-performance durability for both domestic and professional kitchens. These boards deliver a premium look while standing up to the demands of everyday prep.

Crafted from advanced fibreboard, Onyx boards are dishwasher safe for effortless cleaning and hygiene, knife kind to help preserve blade sharpness, and heat resistant—making them as practical as they are stylish. Their dense, stable construction resists warping and moisture absorption, ensuring long-lasting performance shift after shift.

CARE & USE: Dishwasher safe.

CARE & USE OF YOUR T&G MILL

CARE & USE OF SALT & PEPPER MILLS

Peppercorns like coffee beans taste best when freshly ground!

PEPPER freshly milled is clearly superior if you compare it to the ready ground varieties available from supermarkets. Whole peppercorns contain a natural oil which gives pepper its distinctive flavour and quickly oxidises and loses its pungency once the peppercorns are ground. For maximum eating pleasure the pepper is best ground coarsely so that the final grind is done with the teeth, releasing the pungent flavour direct into the mouth.

SALT is an essential mineral component of a healthy balanced diet. Sea salt provides one of the simplest ways of meeting these dietary needs. As is the case with ready ground pepper, processed table salts are considered the least flavoursome by discerning cooks. This is because they often contain additives and anti-caking agents to provide easy flow.

For these reasons salt and pepper mills are among the most popular kitchen tools!

Never place a mill directly over open saucepans, casseroles or frying pans during the cooking process. The steam will dampen the salt and pepper grounds which can clog up the mechanism. Steam can also have a detrimental effect on the mill body and grinder. If the mechanism does get clogged empty the mill and clean the mechanism with a small brush.

Mill bodies can be kept clean by wiping them over with a damp cloth. Wooden models will benefit from an occasional application of T&G's food safe wood oil or mineral oil, to enhance the appearance and prevent the wood from drying out.

T&G SALT & PEPPER MILLS

T&G Mills all have a ceramic mechanism which achieves a finer grind than conventional metal mechanisms. Furthermore this type of ceramic is an extremely hard material it guarantees excellent ongoing performance for many years. The CRUSHGRIND® mechanism used in some of T&G mills has its own unique grinding system which requires no central spindle and delivers excellent performance grind after grind.

The CRUSHGRIND® mechanism is excellent for grinding dried herbs and spices which quickly lose both aroma and flavour once they are ground, because the essential oils very quickly evaporate. Buying coarsely ground dried seasonings and milling them when required releases the essential oils, restoring smell and taste to the level of freshly picked ones.

T&G mills are easy to use, simple to fill and regulated by a simple rotating wheel at the base or top of the mill to achieve a fine or coarse grind.

Proven performance; test results established the mill in perfect working order after grinding 50 kilos of pepper and 50 kilos of salt through the same grinder — the equivalent of 200 years of normal domestic usage!

The mill stone can easily be removed making it ideal for cleaning and maintenance — the ceramic mill stone is dishwasher safe. As the mechanism is ceramic, it is also non-corrosive and non-porous and unlike metal it will not oxidise food.

CLASSIC SALT & PEPPER MILLS

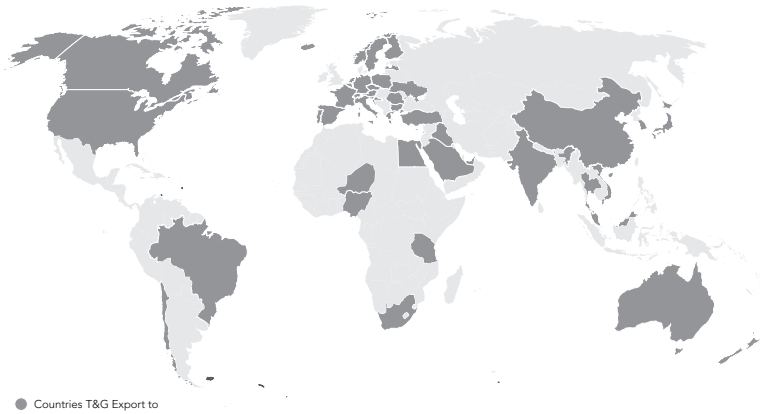

T&G's Classic mills are available in a choice of different materials including crystal clear acrylic, stainless steel, hevea and beech wood, copper finish and coloured wood.

All T&G Classic mills have fully adjustable ceramic mechanisms. There are no metal grinders to corrode and no plastic grinders to wear out, just ceramic.

Add a spot of cooking oil to the top of the metal spindle where it meets the adjusting screw, this will prevent oxidation and keep the thread in good working order. It is advisable to repeat this occasionally throughout the working life of the mill.

All Classic mills have a 10 year mechanism guarantee. Please note we no longer accept mill returns, but are happy to provide replacement mechanisms and parts where a proof of purchase is provided. If the mill is a discontinued model, we will endeavour to find replacement mechanism parts.

T&G CATERING EQUIPMENT

Whether front of house or back of house, table service or tools, T&G offers a wide range of durable, easy-to-use products designed to support every aspect of food service.

All T&G products are designed in the UK and manufactured with style, quality, and functionality in mind.

We also offer bespoke and branded products made to order, subject to minimum quantities and lead times.

To explore the full T&G range, please request a copy of our main T&G Catalogue and T&G Mill Catalogue, or visit our website: tg-woodware.com

T&G SAMPLE POLICY

All samples are charged at our sample price. T&G supplies samples on a sale or return basis. Please note that all samples must be returned in perfect condition and in their original packaging to qualify for credit.

We understand that, in some cases, samples may not be returned due to product testing or being used in situ. In these situations, T&G will continue to invoice the sample but will refund the amount against any order placed for the same product as a direct result of the sample presentation.

ALL ITEMS ARE SUBJECT TO AVAILABILITY AND STANDARD T&G DELIVERY TIMES.

New from T&G

ECLIPSE BLACK & ACACIA
The acacia wood brings rich grain patterns and natural variation, while the matte black elements add a bold, sophisticated contrast.

PROFESSIONAL ONYX BY T&G
High-performance kitchenware range crafted from durable, knife-friendly fibre board delivers both style and everyday practicality.

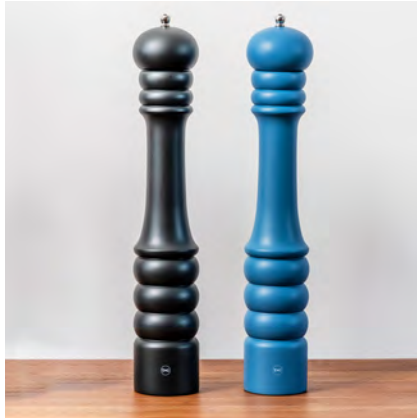

ACACIA GEOMETRIC BOWLS
Beautifully sculpted acacia wood bowl, designed with a striking geometric form that blends modern style with natural warmth.

HERRINGBONE ACACIA
Crafted from beautifully grained acacia wood, each board showcases a unique mosaic of warm tones arranged in an elegant herringbone pattern. The result is a piece that's as functional as it is decorative.

NEW STEAK BOARDS
Double-sized steak boards are designed with deep juice grooves on both sides and a practical recess for a dip dish, making them the perfect accompaniment to any meal. Available in both hevea and acacia wood.

NEW CAPSTAN COLOURS
Classic mills are available in a variety of materials including acrylic, hevea, beech, copper finish and coloured woods.

WELCOME

SINCE 1975, T&G HAS BEEN DESIGNING, PRODUCING, AND RESPONSIBLY SOURCING EXCEPTIONAL QUALITY KITCHENWARE BUILT TO MEET THE DEMANDS OF EVERYDAY LIFE. FROM OUR BEGINNINGS AS A WOODWARE COMPANY, WE'VE GROWN INTO A TRUSTED LIFESTYLE BRAND, GUIDED BY A COMMITMENT TO QUALITY, FUNCTIONALITY, AND TIMELESS DESIGN.

THANK YOU FOR YOUR CONTINUED TRUST AND SUPPORT.

BRIAN ATHEY
MANAGING DIRECTOR

Design & Innovation

DESIGN & INNOVATION

Only the finest ingredients are used when designing and developing T&G products. We believe in better and continually push boundaries to create innovative, on-trend, practical, high-quality designs.

Every T&G product begins with a blank sheet of paper. From concept to creation, we develop each item meticulously to ensure it is the very best it can be.

From the iconic curved wooden spatula designed in the 1990s, to our award-winning CrushGrind® mills, and our FSC®-certified beech TV boards - featured on countless cookery programmes since 1979 -T&G products have become true design classics. With over 50 years in business, there are few kitchens, bars, or restaurants that don't feature at least one T&G product.

We invest significant time, expertise, and resources into developing products that offer genuine benefits over others in the market. We cannot allow other companies to benefit from this investment by simply copying our designs after the hard work has been done.

All exclusively designed T&G products are protected by registered design rights.

We have a responsibility to our customers to protect the integrity of our designs and will take legal action against companies that attempt to exploit our innovation and investment through imitation.

We are uncompromising in protecting our intellectual property. The care, attention, and passion that go into designing and manufacturing our products is exceptional—we obsess over every detail. Our commitment to quality, innovation, and design excellence is at the heart of everything we do.

ENVIRONMENTAL POLICY STATEMENT

With a strong focus on the natural world, T&G's commitment to ethical sourcing remains a top priority.

Environmental responsibility is central to T&G's business, as our product range is predominantly wood. Company policy is to ensure that all T&G products are manufactured using timber sourced from well-managed, sustainable forests and plantations wherever possible.

T&G has been at the forefront of developing the market for sustainable wooden products in the UK and overseas and was one of the first members of the World Wildlife Fund's 95+ Group (WWF 95+).

We have held FSC® certification since 1999. The FSC® logo on our products provides customers with independent assurance that the timber has been

sourced from forests managed to rigorous social, environmental, and economic standards. Today, over 70 of our products are certified in accordance with FSC® principles, with many sourced from European FSC® forests. This number continues to grow as we introduce new certified ranges.

Please look for the FSC® logo on certified products.

FSC® is T&G's commitment to making a difference.

Look out for our FSC® certified products
