

VENTA®
BY BÜCHLIN DESIGN

2019

"We have invested all of our energy into making our furniture as functional as possible, but with such elegant designs that this is not immediately obvious."

Karl Büchin, General Manager Büchin Design, Berlin

Büchin Design develops, builds and sells individual furniture for the hotel industry and events catering business under the brand name „VENTA by Büchin Design“.

The high-quality buffet furniture includes exclusive cocktail tables and stylish buffet tables as well as matching modern stools. Most VENTA furnishings can be folded up or stacked together to save space, and can be assembled and disassembled in just a few easy steps, without the need for any tools.

All of our buffet furniture is mobile and can be used anywhere. It meets the high demands of the hotel, events and catering industry in every respect.

Our VENTA products have an exclusive design and are available worldwide.

Most of our VENTA products are manufactured in Germany, and we are pleased to appear with the “Made in Germany” seal at trade fairs both in Germany and abroad.

Modular Buffet

buffet tables on wheels | height adjustable | nesting function

STAGE – the modular buffet system

Features

SYSTEM SIZE – Table system available in three standard lengths (L=196 cm, M=180 cm, 2 x XS=80 cm)

NESTING - the three standard sizes can be pushed together, so that only 1.96 m of the 5.36 m buffet table length is required as NESTING system.

COMBINE – system available in two table depths, 80 cm = classic buffet size/50 cm = table depth for smaller meeting rooms. Combinations of the two table depths result in interesting buffet variants or e.g. a MOBILE BAR.

ADAPTIVE - each table can be optimised for the respective area of use with additional equipment (e.g. shelves below the table surface for use as a plate shelf).

CHANGEABLE – a light, elegant buffet system consisting only a metal frame for the table legs and a transparent glass top. Or a buffet system with full equipment including appliances for heating and cooling, thermal bridges, shelves and blinds - STAGE can do both.

FUNCTIONAL – wheel diameter in three sizes suitable for the application: small = in the room or on the floor/medium = in the whole hotel, also suitable for lifts or smaller thresholds/large = inhouse and outdoor, also usable on the terrace.

ADJUSTABLE HEIGHT – four table heights can be adjusted at each table in a grid of 8 cm, thus enabling an interesting and varied furniture construction.

MOBIL - buffet table on wheels, which can be moved in any room and throughout the hotel, all wheels are lockable to fix the table in place.

STORAGE – if required, the system can be dismantled without tools and stowed in trolleys (wooden boxes on wheels), each part has a fixed place due to a grid system and cannot be damaged during transport.

COLOR – elegant lacquering of the table frames and the table tops (underside of the glass tops), so the matching color to the room concept is selectable.

DECOR – table tops available in „compact top“ material with various decorative surfaces (photo reproduction: wood, stone, metal).

BLINDS – various decor panels to choose from, variants from completely closed to translucent, can be quickly assembled and disassembled by magnet attachment, enables „invisible supply“.

STAGE - the modular buffet system

modern look & easy to move
simple, functional, good-looking.

The modular buffet table system STAGE_80 can be assembled and disassembled in just a few easy steps, without the need for any tools.

The trolley system allows you to storage all four tables in a mobile wooden box on wheels.

explosion view/

Warm Buffet

buffet tables with invisible induction devices to keep the food warm

Item No.: 80049101303

The new highlight of our furniture range is the STAGE_80_M_INDUCTION_2G buffet table with integrated surface induction.

You can place three to four pots on the four induction hobs and set the temperature for each hob individually.

Table with four integrated induction fields to keep the food warm on a buffet. Each induction field can run individually. You can adjust four different levels (40°-90°C). The first level corresponds to approximately 40°C, depending on the used pot. On each induction field (measures: 34 x 34 cm) you can place several pots to keep them warm.

This technology was developed by the Swiss company GASTROS and is marketed under the brand name InductWarm Series 130. Büchin Design is the only company who offers this technology integrated in its mobile buffet tables.

Item No.: 80049101401
table-top: compact panel, white

Item No.: 80049101307
table-top: glass, black

Item No.: 80049101402
table-top: compact panel, ceramic anthracite

Item No.: 80049101303

The advantage of this induction-table are two different materials for the table-top. You can choose the table-top in glass (underside colored) or in the material „compact panel“.

„Compact panel“/definition: compact laminates have a multilayer structure and consist of melamine resin impregnated decorative paper and multiple layers of soda kraft paper impregnated with phenolic resins, which are laminated under high pressure and heat.

adjust the heating

COOL + HOT

cool or hot – as you desire – in one table

Item No.: 80063101401

The buffet table STAGE_80_XS_BAIN-MARIE_COOL+HOT is a stainless steel basin of size 2/1 GN which contains a COOL+HOT unit.

This technology was developed by Höller, one of a small number of companies worldwide who offer this technology in small and convenient units. This cold-hot plate enables you to keep dishes cool at temperatures as low as -5°C or to switch on the heating function. A hot plate keeps dishes warm. This has the added benefit that you do not have to use induction-compatible cookware, but can also use porcelain cookware, for example.

The buffet table has an area of 80 x 80 cm, while the integrated hob measures GN 2/1 (i.e. 66 x 53 cm). Power is supplied via a standard power cable (230 V). Heavy current is not required.

The equipment runs very quietly and energy-efficiently.

Item No.: 80063101401 (different types of use)

Item No.: 80063100402

COOL

cooling – without plug

Item No.: 80007101303

Our exclusive STAGE_80_XS_COOL table with integrated cold plates works without the need for any power cables.

You place this table anywhere in the room – no need for power sockets.

Before use, the cold plates must be stored in the freezer room of the hotel or event location for around twelve hours at -18°C. Then the COOL table can be used for approximately five hours.

The temperature of the table surface is approx. 5°C. The table is designed for indoor use with an ambient temperature of approx. 21°C.

Outdoor use with higher temperatures is not possible.

 table-top: 407, 409, 411, 412, 414, 415, 416, 417, 418, 419

The small buffet table
 STAGE_50_XS and two
 additional shelves result in
 a new product: the VENTA
 SERVICE-CART.

This very useful table offers
 a wide range of applica-
 tions:

as a small ordering table for
 serving, as a small tea trol-
 ley for meetings or simply
 equipped with a blind as
 practical storage space.

Mobile Bar

modular – rollable – flexible

Neue Nationalgalerie, Berlin/GERMANY

Mobile Bar system and stools

The Mobile Bar – a design experience, with an exclusive, modern design, flexibility and versatility.

The established STAGE buffet system from our VENTA Interior range can be converted into a mobile bar. In place of the glass panels, already part of all versions, we have added an additional table-top option to our portfolio. The compact panel is a heavy-duty plastic surface. We use this panel both as a table-top and as a covering, which enables a mobile bar to be created from a STAGE buffet table in an instant. A front panel is attached to the existing metal adapters on the long side. The two side coverings are also attached to the front panels using special connectors without the need for tools. Then the table-top, which is also formed from the compact panel, is attached to the adapter. Attach the table-top, and the mobile bar is complete!

To make it perfect, you only need one more item of STAGE buffet system furniture. With the STAGE_50_L buffet table as a counter, the mobile bar is ready for use. The STAGE_50_L table-top can consist of a glass panel (particularly appropriate in color form) or a compact panel. There is virtually no limit to the possible combinations. The mobile bar can match the color theme of the room or the event theme.

We offer two standard versions of the mobile bar – the corresponding table frames in standard anthracite and champagne colors and the table panels and coverings in anthracite (ceramic anthracite) and white (premium white).

Table + Stool

suitable for every event

Cocktail tables

Our exclusively designed cocktail tables can be folded up and can be assembled and disassembled in just a few easy steps, without the need for any tools.

A trolley system enables the furniture to be transported and stored in the smallest spaces. All of our furniture is mobile, can be folded up and can be used anywhere.

Maximum flexibility. Our Cocktail table – always the focal point with its stylish design.

Our Cocktail table is perfectly designed down to the smallest detail. It has a unique combination of design and functionality. The tables are simply elegantly designed. It comes as a surprise to many that this is a folding table, which can be stored in the smallest spaces.

FEATURES

unique and originally designed by VENTA

Features of VENTA products

feet-adjustment

The cocktail tables have three feet which are fixed. The fourth foot is adjustable. You can use your own foot to adjust easily the stability.

glass-top mounting

The cocktail tables and most of the buffet tables have a special feature to fix the glass-top to the base. The screw is mounted undetachable on the base.

glass-top quality

All glass-tops are produced as safety glass. In case of damage, they will break into small pieces to avoid any injury.

trolleys for storage

For almost all VENTA products we offer trolleys to store the goods. You can store ten cocktail tables in a trolley in less than 0,6m².

foldable furniture

Nearly all VENTA products are foldable.

stackable furniture

The stools can be stacked up to ten pieces.

All VENTA furniture has special features that make our exclusive products distinctive and unique. Each individual product was designed as a foldable, stackable or modular system, so our high-quality furniture can always be securely stored, taking up very little space.

A matching trolley system is available for all VENTA furniture items, where the table parts can be stacked individually and secured in place against one another.

All VENTA furniture is put together without the use of any tools and there are no parts that can get lost. The connecting elements between the table frame and table-top are always made of stainless steel and are produced using high-precision lathes. The consistent quality of our products is ensured through regular physical controls.

VENTA products are designed as foldable, stackable or modular systems, enabling our furniture to be stored securely and using very little space. We also offer additional equipment for many VENTA products to make them even more simple and convenient to manage. All foldable tables can be equipped with rollerskates, for example. This enables the buffet tables to be moved around the room quickly and easily without having to carry them or take them apart and put them together again.

Material + Color

BASIC | OPTION | CUSTOMIZED

Büchin Design offers a wide range of materials and colors in three categories **BASIC**, **OPTION** and **CUSTOMIZED**.

Most of the VENTA products contain more than one material. If you choose one part of a model in the higher category, all the other materials and colors can also be taken in the higher category.

All VENTA items have a unique five-digit item-number.

example: 23001 for the cocktail table_SET_70

To define the material+color of the model, just add the three-digit material code.

example: 23001 + 100 (base frame = anthracite) + 300 (table-top = glass, transparent) + 300 (lower-tray = glass, transparent).

Metal | color options

BASIC | three colors

OPTION | five colors

CUSTOMIZED | select your color from IGP-range (number 58 / color code: IGP DURA face/pearl mica effect)
